- ▣ **Learnings:** Gained proficiency in React.js and enhanced problem-solving skills.

### Event Calculator

- ▣ **Objective:** Developed a dynamic and user-friendly Event Calendar application using HTML, CSS, and JavaScript to provide seamless event management. -
- ▣ **Technologies Used:** HTML, CSS, JavaScript -
- ▣ **Key Features:** Implemented interactive calendar interface, event categorization, and user-friendly event management. -
- ▣ **Challenges Overcome:** Addressed challenges in date handling and ensured responsiveness for various screen sizes. -
- ▣ **Results:** Positive feedback received for the application's usability and design. -
- ▣ **Learnings:** Gained practical experience in JavaScript for interactive web applications.

## CERTIFICATES

### MERN Stack (2023 - Present)

Completed an engaging MERN (MongoDB, Express.js, React.js, Node.js) Stack Development course. Became fluent in front-end essentials (HTML, CSS, JavaScript) and honed skills in crafting interactive web applications. Mastered React.js for dynamic interfaces, Redux for seamless state management, and Node.js/Express.js for robust server-side development. Embraced MongoDB for efficient data handling. Ready to bring this versatile skill set to collaborative web development projects.

### Software Testing (2022 - 2023)

Completed an intensive and comprehensive Software Testing Course, focusing on industry-standard methodologies and best practices. Acquired a solid understanding of the software development life cycle (SDLC) and the role of testing in ensuring product quality. Developed proficiency in manual testing techniques, test case design, and execution.
